

One Nevada Transportation Plan

Statewide Mobile Outreach

September 19 – September 28

Help shape the future of Nevada's transportation system!

The Nevada Department of Transportation (NDOT) is developing the One Nevada Transportation Plan, a performance-based plan that will guide transportation investments over the next 20 years. With funding limitations an ongoing reality, it is critical that we prioritize investments across that state to maximize their benefits and support continued growth. NDOT would like to hear your thoughts on what is important to you and where you think we should focus our priorities.

To hear from as many Nevadan's as possible, NDOT will be crisscrossing the state over a two week period conducting brief, two hour engagements. These informal meetings will allow you to provide feedback that will be used to develop prioritization scenarios. Stop by at any of the times and locations shown and help shape the One Nevada Transportation Plan.
